A. McGILL & SON
WHOLESALE NURSERYMEN

FAIRVIEW, OREGON

Telephone MOhawk 5-4156

TO THE TRADE

In offering the following list of nursery stock we wish to emphasize the fact that it is grown on non-irrigated soil under natural growing conditions and is well ripened before digging. The long growing season and plentiful rainfall of the Willamette Valley are conducive to rapid growth but proper maturing of all stock is easily controlled by cultivation.

PRICES are based on present market conditions and subject to change without notice. All quotations are subject to previous sale and all prices are made for the use of established nurserymen only.

ALL PRICES F.O.B. FAIRVIEW, OREGON.

TERMS. 2% discount 10 days—Net 60 days from date of invoice for those whose responsibility is known to us. Satisfactory references are required from unknown parties. Interest at 6% per annum will be charged on overdue accounts.

ORDERS are booked subject to crop conditions or errors in count, and with the understanding that same shall be void should injury befall stock because of hail, fire, frost or other cause beyond our control.

GRADE STANDARDS are those adopted by the American Association of Nurserymen.

PACKING. All boxing or baling charges at cost. No charge is made when stock is packed in bulk in a car.

SHIPPING. In making our Eastern shipments, we use combination or pool cars to several distributing points throughout the East and Middle West. This greatly reduces the freight charges and makes our stock as reasonable as any. L.C.L. railroad freight, auto freight or express shipments promptly handled.

INSPECTION CERTIFICATES will be furnished with each shipment.

CLAIMS for any cause must be made promptly on receipt of shipment. Any stock rejected must be reported immediately and held for advice from us as to disposition but in no case should it be returned to us without authority. We will cheerfully allow credit for proven unsatisfactory stock but will not entertain claims after stock has been once accepted.

GUARANTEE. WE GIVE NO WARRANTY, EXPRESS OR IMPLIED, AS TO LIFE, DESCRIPTION, QUALITY, PRODUCTIVENESS, OR ANY OTHER MATTER, OF ANY NURSERY STOCK OR PLANTS THAT WE SELL. SHOULD ANY STOCK PROVE UNTRUE TO NAME AS LABELED, IT IS MUTUALLY AGREED THAT OUR TOTAL LIABILITY, UPON SATISFACTORY PROOF, SHALL BE LIMITED TO OUR REPLACING FREE OR REFUNDING THE PURCHASE PRICE.

Respectfully,

A. MCGILL & SON.

FRUIT TREE SEEDLINGS

Seedlings are tied ¼ inch and No. 1, 100 per bundle. No. 2 and No. 3, 200 per bundle. Please order accordingly. Under 600 of one variety and grade at 100 rate.

SHADE AND ORNAMENTAL TREES

ASH

MORAINÉ[®] ASH

(Fraxinus Holotricha Moraine)

(Plant Patent No. 1768)

The current demand for trees of medium size to use in street and lawn plantings make this new tree most acceptable and commercially valuable. It overcomes the major objectionable characteristics which have made ash trees undesirable for such use. These objectionable characteristics overcome by Moraine Ash include rough bark, irregular top formation, heavy fruiting habits, early shedding of foliage, dull color foliage and unduly large size of mature trees.

We are growing this patented variety under license from The Siebenthaler Co., owner of the registered trademark "Moraine" in the United States and Canada.

SHADE AND ORNAMENTAL TREES (Cont'd)

HONEYLOCUST

IMPERIAL LOCUST

(Plant Patent No. 1605)

An especially desirable variety whose numerous symmetrical branches emerge from the trunk at nearly 90 degree angles to form a fairly broad, dense uniform crown. The trunk grows straight and strong without staking.

Grown and sold by us under license from the patent owner.

"MORaine® LOCUST"

(Plant Patent No. 836)

A new and improved form of thornless Honey-Locust. Noted for its freedom from seed pods and thorns, graceful vase shape, lace-like foliage, ability to stand almost any growing conditions.

This variety of Honeylocust tree is a patented variety covered by United States Plant Patent No. 836 and is being handled under license from the Siebenthaler Company, owner of the registered trademark "Moraine" in the United States and Canada.

SHADE AND ORNAMENTAL TREES (Cont'd)

HONEYLOCUST (Cont'd)

SHADEMASTER LOCUST

(Plant Patent No. 1515)

This new variety of thornless honeylocust is especially noted for its straight strong trunk which needs no staking. The ascending branches produce a very symmetrical top. The heavy dark green foliage remains on the tree until late in the fall.

This variety is being grown under license from the patent owner.

	Each 10-49	Each 50-249	Each 250-up

3-4 ft., whips	1.65	1.35	1.20

*This grade "Sold Out"

SKYLINE LOCUST

(Plant Patent No. 1619)

An unusual variety of distinctive pyramidal form. Foliage is dark green and leaflets are larger and more closely spaced than the average Honeylocust. It develops a strong trunk and shapely crown without being staked or specially trimmed. Branches are uniformly spaced, resulting in a well filled rather formal appearing tree.

Practically all flowers are male but infrequently a polygamous flower has appeared in which a single floret is female. Only a small percentage of these are pollinated, therefore seeding is of minor importance. Grown and sold by us under license from the patent owner.

	Each 10 to 29	Each 30 to 99	Each 100 to 299	Each 300 and up
8-10 ft., br.	\$6.00	\$5.40	\$4.90	\$4.60

LINDEN

GREENSPIRE

CORDATA LINDEN

Plant Patent No. 2086

The Greenspire Linden combines all the outstanding features of the little-leaved Linden with the perfection of this new patented variety. A stately grower that holds its head straight and high; uniformity in growth that never before has been obtained in Cordata Linden; the outstanding shade tree for both landscape and street tree use.

Unlike other little-leaved European Lindens, it forms a perfectly straight trunk without costly staking and pruning. The branches are placed radially around the trunk, so that even small trees have a shapely head. It has small, leathery foliage and rapidly grows into a regular, narrow oval form.

	Each 10-49	Each 50-249	Each 250-up

MAPLE

CRIMSON KING MAPLE

(Acer platanoides schwedleri Nigra)

Plant Patent No. 735

Unquestionably, the most beautiful of all Maple shade trees, CRIMSON KING is the **only** variety in existence that retains its rich dark crimson color throughout the entire growing season.

Somewhat slower in growth than the Schwedler Maple it is by far the most striking shade tree to be introduced in many years.

Crimson King Maple will again be publicized by national advertising. Beautiful four-color folders are available for your use as bill stuffers, hand out pieces and direct mail advertising.

We are growing it under license from the Patent Owner.

SHADE AND ORNAMENTAL TREES (Cont'd)

MAPLE (Cont'd)

McGILL'S SPECIAL BUDDED NORWAY MAPLE

This strain of Norway Maple is budded from a careful seedling selection. In our nursery it is a very rapid grower in height as well as calibre. It is straight as an arrow and in our nursery has good branching tendencies, slightly more ascending in habit than the average seedling Norway. The dark, glossy green leathery foliage is extremely attractive and to us has distinctive character.

FLOWERING TREES (Cont'd)

CRABAPPLE, Flowering

Almey

Each Each
per 10 per 100

Large glistening red blooms with white markings at base giving effect of five pointed star. Usually blooms first year planted. Scarlet fruit.

6-7 feet, branched	\$2.00	\$1.75
5-6 feet, branched	1.65	1.50
4-5 feet, branched	1.45	1.30
3-4 feet, branched	1.20	1.10

Atrosanguinea

Single carmine flowers, small red fruit

6-7 feet, branched	\$1.65	\$1.50
5-6 feet, branched	1.35	1.25
4-5 feet, branched (Sold Out)	1.10	1.00
3-4 feet, branched (Sold Out)	.85	.80

Bechtels

Double pink blooms, very fragrant

5-6 feet, branched	\$1.75	\$1.60
4-5 feet, branched	1.35	1.25
3-4 feet, branched	1.00	.90
2-3 feet, branched	.75	.70

Bechtels, Dwarf

A sport of the regular form. Grown in bush form, it has the same flower and leaf, it will not grow more than eight to ten feet tall.

3-4 feet, branched	\$1.35	\$1.25
2-3 feet, branched	1.10	1.00
18-24 in., branched	.80	.75

CRIMSON BRILLIANT FLOWERING CRAB

Plant Patent No. 939

The most brilliant red flowering crab to date. Semidouble blooms. Tree is medium in size reaching a height of about 15 feet at maturity. A rapid grower that flowers a year after planting, but as the tree grows older the number of flowers increase. Purple red fruit, red flesh about the size of a cherry. Very hardy.

Sold for growing only, not reproduction, under license from the owner of U. S. Plant Patent No. 939.

RADIANT CRAB

This new introduction of Minnesota State Breeding farm is a valuable addition to the list of the better flowering Crabs.

The bright rosy red flowers are followed by brilliant crimson-red fruit in midsummer.

The new purple-red foliage contrasts beautifully with the older rich green leaves. The compact habit of growth makes this an ideal flowering crab.

MAPLE

CRIMSON KING

Unquestionably, the most beautiful of all Maple Shade Trees. *Crimson King* is the only variety in existence that retains its rich, dark, crimson color throughout the entire growing season.

Crimson King is easily recognized by the glistening, satiny sheen of its lovely dark red foliage. The distinctive, deep brilliant color of this outstanding specimen tree creates an exciting contrast to lawns and shrubs throughout the spring, summer and fall. Excellent for large or small lawns.
